

The 2025 regulations describe conditions for outdoor fires that are relatively safe and do not require a permit. Fire permits will not be required for small-scale burning of wood, brush, leaves, or wood by-products if these conditions are as followed:

Piled Material (i.e. brush, wood):

- tended by a responsible person until out,
- a single pile less than 2 metres in diameter and less than 2 metres high,
- the fire ignited 2 hours before sunset, or later, and extinguished 2 hours after sunrise, or earlier,
- the fire is at least 2 metres from any flammable material,
- the individual must have adequate tools or water to contain the fire

Grass and Leaves:

- tended by a responsible person until out,
- the area to be burned is less than 1 hectare,
- the length of flaming edge is less than 30 metres,
- the fire ignited 2 hours before sunset, or later, and is extinguished 2 hours after sunrise, or earlier,
- the individual must have adequate tools or water to contain the fire

Incinerators:

- noncombustible enclosed device,
- at least 5 metres from any forest,
- at least 2 metres from flammable materials,
- covered by mesh not more than 5 millimetres in size, and
- a responsible person monitors the fire until out

CAMPFIRES ARE ALLOWED FOR COOKING OR WARMTH, HOWEVER; IF A RESTRICTED FIRE ZONE IS PUT INTO EFFECT BECAUSE OF HIGH HAZARD, THESE FIRES WILL NOT BE ALLOWED.

This is only an excerpt of the Forest Fires Prevention Act prepared for purposes of convenience only. Accurate recourse reference should be made to the official volumes.

This product is for reference purposes only. If using this “reference” for fire or hunting purposes, please ensure you know the exact sunrise/sunset times for the area you are burning or hunting in. Times will vary by location.

Burning Tip: If it’s windy, don’t burn!

If winds are in excess of 10 km/h do not burn grass, leaves or piled material.
