

## Public Statement on Pine Street Culvert Update

### **FINAL WORK COMMENCES AND ENDS THIS MONTH**

**May 7, 2024 – Ignace ON**

#### **Pine Street Culvert Update:**

The Township of Ignace is pleased to inform the residents of the community that the final finishing work and construction of the replacement of the culverts on Pine Street has now started. While that work is continuing, please note that Pine Street **will be closed to vehicular and pedestrian traffic.**

The Township's contractors are assembling their equipment and final finishing work, asphaltting, and reopening of the Pine Street bridge should be completed by the end of May 2024.

The work which is expected to start over the next few days will include the addition of topsoil on the west bank of Pine Street, preparation and pouring concrete for the new sidewalks and curbs, preparation for asphaltting the entire area and then hydroseeding the edges and space around the culverts. General clean up and demobilization should all be completed towards the end of May 2024.

On behalf of Mayor and Council, we want to thank everyone for their patience and support while this work has been taking place. Because of the unforeseen mild conditions of the past winter, the project required more work than originally anticipated.

Thank you
